

## **\*STORM WARNING SERVICE**

This service has a detailed forecast during storm events including the timing, amount, type, and duration of precipitation; accumulations; changeover and starting/ending times. **ALSO** get a recommendation of what your actions should be! Preliminary Storm Warnings are sent to you up to **FOUR** days before any weather event threatens. It gives a general early look at the basics of the pending storm, including duration, timing, intensity, and snow amounts. Regular Storm Warning numbers are sent 24-48 hours before the onset of the storm with updates every 4-6 hours (or sooner) until the storm passes. A Weather Alert is issued for smaller events that will have a more general impact on the region. The Alert mentions the zones or towns will be impacted by the weather, the duration of the event, and also what actions should be taken to best prepare for the weather. Notifications are provided as needed and service also includes unlimited call in phone access to our meteorologists.

## **\*POST-STORM SNOW TOTALS**

Get exact accumulations for each & every snow event for Connecticut, Massachusetts, New York, and/or Rhode Island. As the official climatological site for Danbury, we have access to official snowfall totals **PLUS** we have our own trained observers in our Snow Scout Network. Official snowfall totals are delivered within 24 hours following the end of a storm. Reports include current snow totals, season to date snow totals, as well as the post snow totals color map.

**NO** other weather service backs their data as we do **PLUS** you receive one **FREE** forensic report each year, if needed for a client or court case. Our information is **ACCURATE** and **OFFICIAL** and signed by our meteorologists.

## **\*STORM FORCE**

**STORM FORCE** is the latest and greatest in weather information warning technology. When you subscribe to **STORM FORCE**, you will get text messages instantly from our meteorologists about important weather changes or developments. In the winter, immediately be warned when black ice is forming or is imminent, when snow is moving into your county, and more. In the summertime, be immediately warned when a flash flood, lightning, or high wind is occurring. The warnings are sent via text message on your cell phone. Keep up to date on any and all-weather changes **PLUS** add your employees/crew/security staff/building maintenance crew. Have everyone notified at the same time about dangerous weather conditions.

**NO MATTER WHERE YOU ARE!** You pick how many months you want to subscribe and you have control of what cell numbers you add or take off your account. The messages are guaranteed to get to you as we subscribe to a text message delivery service that sends our messages to you directly through the cell phone provider's network. The messages are never delayed or lost! Each day a *Storm Force Daily Synopsis* will be e-mailed to you to give you the weather briefing on the next 30 hours.

## **\*WEATHER HAWK**

Weather Hawk is set up and downloaded software on your computer. You can access the latest live current weather from your town and surrounding towns, access to the latest forecast for your location, as well as our in-house Doppler Infinity Radar. The radars are set for storm tracking and for radar images with current weather plots that include lightning strikes.
