

## The Connecticut Weather Center

### **STORM FORCE** An Emergency Notification System

STORM FORCE is the latest and greatest in weather information warning technology.

When you subscribe to STORM FORCE, you will get text messages instantly about important weather changes or developments. Be immediately warned when severe winds and lightning storms are approaching your area. Also we will inform you when black ice is forming or is imminent, when snow is moving into your county, and more. The warnings are sent via text messages on your cell phone. Keep up to date on any and all weather changes PLUS add your employees/crew/security staff/building maintenance crew. Have everyone notified at the same time about dangerous weather conditions.

Our warnings differ from other weather service providers as we pinpoint your exact area when severe weather strikes.

**NO MATTER WHERE YOU ARE!** You pick how many months you want to subscribe and have control of what cell numbers you add or take off your account. The messages are guaranteed to get to you as we subscribe to a text message delivery service that sends our messages to you directly through the cell phone provider's network. The messages are never delayed or lost! Each day a STORM FORCE DAILY SYNOPSIS will be e-mailed to you to give you the weather briefing on the next 30 hours.

- \$15 per month for registration of 1 cell phone
- \$100 per month for registration 2-5 cell phones (includes daily synopsis)
