

ACCURATE SITE SPECIFIC WEATHER INFORMATION!
CALL 203 730-2899 (730-CTWX) FAX 203-730-2839 (730-CTFX)

***STORM WARNING SERVICE (See enclosed sample sheet) OMNI SERVICE INCLUDED!**

An extensive detailed forecast including the timing of storms; amount, type and duration of precipitation; accumulations; changeover and starting/ending times. ALSO get a recommendation of what your actions should be! Regular Storm Warning numbers are faxed 24-48 hours before the onset of the storm with updates every 4-6 hours until the storm passes. Preliminary Storm Warning numbers are faxed to you up to FOUR days before any winter weather event threatens. It gives a general early look at the basics of the pending storm, including duration, timing, intensity, and snow amounts. A Winter Weather Summary is also issued for smaller events that may pose a sudden threat to the state. The summary is issued when only a small portion of the state is being affected by winter weather (i.e. snow squalls, black ice, gusty winds, etc.). The summary mentions which zones or towns will be impacted by the weather, the duration of the event, and also what actions should be taken to best prepare for the winter weather. This is helpful for early planning and decision-making.

***POST-STORM SNOW TOTALS (See enclosed sample sheet) for CT, NY, MA, or RI**

Get exact accumulations for each & every snow event for Connecticut, Massachusetts, New York, and/or Rhode Island. Official snowfall totals are faxed with 24 hours following the end of a storm. As the official climatological site for Danbury, we have access to official snowfall totals PLUS we have our own trained snow scouts over the region.
